

COVID-19 RISK ASSESSMENT PROCESS

(Revised March 2022)

White Horse Training has undertaken a continuous process of risk assessment for the delivery of teaching, learning and assessment in light of the changing situation with COVID-19 since the initial lockdown in March 2020. At this time steps were taken to close the office, enable staff to work from home and move all teaching to online delivery for the foreseeable future. Students at the point of gateway were supported to pass through gateway by recording their off the job training and completing portfolios. Professional discussions were scheduled and undertaken with the help of the AAT's new SEPA system. This meant that those students due to sit their synoptic exams during the April and May windows and complete their apprenticeships between May – June 2020 were in a position to be able to sit the final element of EPA as soon as the AAT reopened the exam windows. Although there was a slight delay in apprenticeship completion for some students all efforts were made to keep this to a minimum.

For students not at the point of gateway online teaching and learning continued the delivery of their planned timetable so that as soon as exam windows reopened they were in a position to sit unit exams, including any outstanding resits. Apprenticeship work was also delivered online for a number of areas such as preparation for practice discussion for Level 3's and team working, presentation skills and reflective writing for Level 4's. Records of attendance were maintained and students kept informed of changes as they occurred. For some students there was more contact than others during the lockdown period either due to their own personal situation or because of where they were in their programme.

When the details of exam windows were released preparations were made by White Horse staff to facilitate the sitting of all outstanding exams in line with the requirements at the time. This included the following measures:

- Cleaning – Full deep clean undertaken by the current cleaning company in the week prior to the office opening. This involved full cleaning of all rooms and surfaces, full carpet cleaning with moving of all furniture. Full cleaning was undertaken every morning prior to the exams and the invigilator cleaned each room thoroughly between exams when different students were in.
- Provision of appropriate PPE – gloves, hand sanitiser and anti-bacterial wipes at the entrance to the building and on each level. Hand sanitiser and wipes at the entrance to each room. Anti-bacterial soap provided in each toilet and in the kitchen area. Masks (although not technically PPE) are also available if required.
- Plan for sitting of exams and staffing in line with social distancing – given the size and layout of the building it was decided that, for staff and student safety, the minimum number of staff should be in the office at any time and only two students would be allowed in the building at any one time. The IT suite, normally used for exams, could not be used as it was difficult to meet the required social distancing measures so the 2 classrooms on the 1st floor were used to enable one student in each one and the invigilator to be able to oversee them from the desk in the corridor.
- Facilities – access to the kitchen was restricted and students were advised that they could only be in the building 15 minutes prior to their exam and must leave straight after.
- Safe transport to and from the building – staff were in the office for the time required and hours adjusted to enable ease of travel and minimum contact with others. Provision was made for students to drive and park at White Horse for the duration of their exam to reduce the risk associated with using public transport.
- Students from the same workplace or geographical area were scheduled to attend for their exam on the same day or over a couple of days.
- Clear guidance was communicated to all students and staff prior to the exams starting.

In September we were required to plan for all students to return from the beginning of the autumn term and implemented a 'system of controls' and completed an assessment of the risks to prepare for this. The aim of the risk assessment was to implement sensible and proportionate protective measures to prevent COVID-19 or reduce the spread of the infection if there was a positive case, both in White Horse and transmission to the wider community.

This risk assessment was reviewed and updated in line with changes to the Government guidance and the subsequent national lockdowns. In January the decision was made to continue with online delivery for all students currently in learning, as well as those due to take their EPA in the coming months and new students starting their apprenticeships in February 2021. Staff continued to work from home unless it was essential that they attended the office and arrangements were made for all course books to be delivered to students in time for their course start date. This was primarily achieved by use of a courier to deliver to home addresses or employers, where offices were open. Students starting after later had resources emailed and books sent to them by courier.

During March plans were made for staff to start to return to office working and for students to return to classroom learning in April, in line with the Government guidelines. However, following consultations with students and employers the overall feeling was that the risks to everyone could not be sufficiently controlled to enable students to return safely to face to face learning. In addition a number of staff are themselves vulnerable or have caring commitments to someone who is vulnerable. As such the decision was made to remain online until June 2021. During this time all students due to sit exams or their EPA have been supported to do so and precautions have been taken to reduce the risk when students have been required to attend White Horse to sit exams. In discussion with the EPAO the functional skills flexibility has been used to support two students to progress through gateway and start their EPA whilst undertaking their Level 2 FSQ. Both of these students have achieved their FSQ's with one achieving his Apprenticeship whilst the other is retaking a part of his EPA.

With the changes to Government guidance during May and June further discussions took place with staff, employers and students to canvas views on the timing of any return to formal classroom teaching. The structure of student timetables allows for teaching to normally step down during July and August to accommodate exams and any additional support teaching that is required. It also meets the employers' business needs as this is a prime time for staff holidays. Further to discussions it was agreed to return to classroom teaching in September 2021 with the start of a new term.

During August preparations have been made to return to normal teaching including:

- Cleaning – Full deep clean undertaken by the current cleaning company in the week prior to opening. This involved full cleaning of all rooms and surfaces, full carpet cleaning with moving of all furniture. Daily cleaning will take place each morning prior to students arriving and communal or high traffic areas e.g. toilets, stair rails, door handles will be cleaned throughout the day.
- Ventilation – all classrooms have windows which can be opened and an air conditioning system which can be used to provide good ventilation whilst also maintaining a comfortable temperature.
- Provision of appropriate PPE – primarily hand sanitiser and anti-bacterial wipes at the entrance to the building and on each level. Hand sanitiser and wipes at the entrance to each room. Anti-bacterial soap provided in each toilet and in the kitchen area. Masks (although not technically PPE) are also available if required e.g. for travelling purposes.
- Although social distancing is no longer required we are reminding students and staff to be respectful and mindful of other peoples' wishes. As such signs remain to remind people to avoid crossing on the stairs. Classrooms are returning to normal layout although desks and chairs will be arranged to allow students to adopt an acceptable space between them. The IT suite will now be available for use with guidance in place for adequate ventilation.
- Facilities – access to the kitchen remains restricted as students will be asked to limit the number of people in there at any one time. However, students will now be able to use the facilities to make a hot drink using the single-use biodegradable paper cups provided. Bottled water filters continue to be available on each level with disposable cups although students are advised to bring their own water bottles with them.
- Clear guidance will be communicated to all students and staff about expectations and measures in place for their safe return to learning. This includes but is not exclusively:
 - travelling safely to White Horse i.e. wearing a face covering on public transport
 - Lateral-flow testing within 2 days of attending and once more during the block
 - Not attending if they have any symptoms of COVID-19
 - Having a PCR test if their lateral-flow test is positive

Since August 2021 White Horse has continued to review the situation in order to deliver our programmes in the classroom and provide support for students in line with the changes to government guidance. Following consultations with staff, students and employers we have continued to implement the following precautions:

- A daily cleaning schedule with particular attention to communal or high traffic areas e.g. toilets, stair rails, door handles.
- Ensuring good ventilation throughout the building whilst also maintaining a comfortable temperature.
- Provision of appropriate PPE in the form of hand sanitiser, anti-bacterial wipes and anti-bacterial hand soap. A supply of masks (although not technically PPE) is also available if required e.g. for travelling purposes.
- Although social distancing has no longer been required we have asked all students and staff to be respectful and mindful of other peoples' wishes. Classroom layouts have enabled staff and students to maintain their personal space if they wish. The IT suite has been used for individual teaching or exams but with appropriate guidance in place for adequate ventilation and numbers of people allowed in the room.
- Kitchen facilities have opened but with guidance for ventilation and numbers within the room. Single-use biodegradable paper cups are provided along individually wrapped tea, coffee, biscuits, etc. and bottled water filters are on each level with disposable cups although students are advised to bring their own water bottles with them.
- Clear guidance has been communicated regularly to all students and staff to ensure that safe classroom delivery can continue. This includes but is not exclusively:
 - Lateral-flow testing within 24 hours of attending and once more during the block
 - Not attending if they have any symptoms of COVID-19
 - Having a PCR test if their lateral-flow test is positive

With the announcement that the government is moving into the next phase of 'Learning to Live with Covid-19' we have made preparations for the changes outlined in the 'Further education COVID-19 operational guidance February 2022'.

- A daily cleaning schedule is in place and will continue as normal practice.
- Good hygiene continues to be encouraged both for hand washing and for respiratory hygiene. Appropriate signage will remain in place to remind people about this.
- The building continues to be well ventilated making use of opening windows and air conditioning to ensure that a comfortable teaching environment is maintained.
- Face coverings no longer need to be worn within the building unless individuals wish to do so. However, individuals should consider wearing a face covering in crowded and enclosed spaces. Please note that individual transport operators may set their own requirements for traveling on public transport so please follow their guidelines.
- Whilst regular asymptomatic testing was no longer required from 21st February we continued to ask staff and students to test twice a week for the following 2 weeks given that we have students from a wide geographical area, some of whom are not vaccinated, and some staff and students are finding this change difficult to adjust to. From 7th March we will not be asking staff and students to undertake regular asymptomatic testing. However we will be reminding all staff and students that they should not be attending if they have confirmed or suspected COVID-19 and are experiencing the key symptoms.

COVID-19 Risk Assessment

ASSESS

Decide appropriate control measures for managers and employees to implement under a 'Plan', 'Do', 'Review' cycle.

Who may be at risk: Employees, students and young people, families (parents, carers and siblings), visitors, contractors, members of the public.

Vulnerable groups: It is envisaged that these measures will significantly mitigate the risks to all staff, but if there are any staff with particular characteristics that may put them at comparatively increased risk from COVID-19 (due to age, deprivation, ethnicity, etc.) an individual risk assessment may be appropriate.

PLAN		DO			REVIEW
Prepare Building, timetables and lessons, policies and procedures	Prepare Employees, students and other site users	Control Access and Visitors	Minimise contacts and social distancing	Infection Control Measures	Communicate and Review Arrangements
Buildings <ul style="list-style-type: none"> Ensure that all health and safety compliance checks have been undertaken before opening (e.g. fire alarm, emergency lighting, water hygiene, etc.) – <i>Done including flushing water cooler and regular sanitisation has been undertaken by BWT since returning to the office. Haven Fire have undertaken their annual check.</i> Reviewing emergency and evacuation procedures – <i>no change to route.</i> Ventilation and AC systems working optimally – <i>Done. No change.</i> 	Employees <ul style="list-style-type: none"> Involve employees in any plans to return to office working and listen to any suggestions on preventative measures that can be taken – <i>Done. All staff have returned to the office although options for flexible working remain.</i> Consider personal risk factors: age, pregnancy, existing health conditions and ethnicity and where necessary conduct individual 	Access <ul style="list-style-type: none"> Students and staff should not enter the building if they are experiencing symptoms of COVID-19 and should inform White Horse Training immediately. <i>No change.</i> Ensure entry points to White Horse are controlled – <i>Done. This is normal practice as entry is via intercom or keycode.</i> Building access rules clearly communicated – 	There is no longer a requirement for social distancing. However it is acknowledge that some students and staff may wish to maintain their own personal space and as such people will be encouraged to respect and be mindful of people's wishes. <ul style="list-style-type: none"> <i>Student groups will be determined and maintained in line with normal practices and requirements of the programme.</i> <i>The movement of students between groups will be at</i> 	Minimise contact with individuals who are unwell: <ul style="list-style-type: none"> <i>Refer to latest PHE and Government guidance.</i> <i>Anyone with COVID-19 symptoms, or who has someone in their household who does, must not enter the building and should notify a member of White Horse staff so that alternative arrangements can be made.</i> <i>If anyone becomes unwell whilst at White Horse they</i> 	<ul style="list-style-type: none"> <i>Consultation with staff including named H&S person on risk assessments. Done.</i> <i>Updated risk assessment published on website, online learning platforms and within White Horse. Done.</i> Nominated employees tasked to monitor protection measures. <i>Invigilator for exam rooms, Tutors for their classroom, office staff for other areas.</i>

<ul style="list-style-type: none"> • Make provision for students who display COVID-19 symptoms/ become ill during the day to be isolated - <i>Space identified in back classroom if required.</i> • Ensure sufficient supplies of PPE including cleaning materials and hand washing/sanitising liquids that meet DfE/PHE requirements – <i>Done. No change.</i> • Provide suitable and sufficient bins to support students and staff to follow the ‘catch it, bin it, kill it’ approach – <i>In place. No change.</i> • Provide sufficient tissues in all rooms – <i>Done. No change.</i> • Access to kitchen facilities – <i>students can now use the facilities but are reminded to ensure that it does not become overcrowded. Single use biodegradable cups can be used for hot drinks. White Horse Training will supply individually wrapped Tea/Coffee, etc.</i> • <i>Students to bring own water bottles, if possible, although single use plastic cups will still be available in the holder next to the water coolers.</i> 	<p>risk assessments – <i>Ongoing.</i></p> <ul style="list-style-type: none"> • Ensure employees are fully briefed about plans and protective measures identified in the risk assessment – <i>Done. Staff continue to be kept informed and are involved in the process.</i> • To keep in touch with off-site workers on their working arrangements including their welfare, mental and physical health and personal security – <i>All staff will be returning to their normal working routines but where there is any home working regular contact will take place with either the MD or Training Manager as appropriate. Normal working practices have been resumed and normal lines of</i> 	<p><i>Only one point of entry via intercom or keycode.</i></p> <ul style="list-style-type: none"> • <i>Joining instructions have been updated for new students to include information about precautions for COVID-19. Ongoing for each new group and information circulated with joining instructions.</i> • <i>Hand sanitiser and PPE provided at entrance to building – Done. No change.</i> • <i>Students, staff and visitors to remove face coverings and wash or sanitise hands immediately on arrival. Face masks or coverings are now only advised for crowded areas which there is contact with people that you do not normally mix with. As such they are no longer required in the classroom or when moving around the building in White</i> 	<p><i>the discretion of the MD and following discussion with appropriate staff.</i></p> <ul style="list-style-type: none"> • <i>The desks in each classroom will be whipped down at the end of the day.</i> • <i>Students can access toilets at all times during attendance but should be discouraged from queueing outside the toilet or on the stairs where possible.</i> <p>Distancing</p> <ul style="list-style-type: none"> • <i>Although social distancing is no longer a requirement everyone will be asked to respect and be mindful of other people’s wishes with regards to their own personal space.</i> • <i>Shared offices are laid out to maintain a comfortable distance between staff.</i> • <i>Staff are responsible for</i> 	<p><i>will be isolated, sent home and provided with information on what to do next.</i></p> <ul style="list-style-type: none"> • <i>As is normal practice the student’s employer will be informed of any student sent home or attending whilst unwell.</i> • <i>If a member of staff needs to be with the student who is experiencing the symptoms of COVID-19 they must maintain their distance or face coverings should be used to minimise the risk of spread of infection.</i> • <i>Staff to ensure rigorous hand and respiratory hygiene is maintained at all times.</i> • <i>All areas where a person with symptoms has been to be fully cleaned after they have left.</i> • <i>Should staff have close contact with a student who is or becomes unwell</i> 	<ul style="list-style-type: none"> • <i>Any non-compliance should be reported, logged and dealt with. Ongoing.</i> • <i>The overall effectiveness of prevention measures will be monitored by the MD at White Horse.</i> • <i>This risk assessment will be reviewed if the risk level changes (e.g. following local/national lockdown or cases or an outbreak) and in light of updated guidance. Ongoing.</i>
---	---	---	---	--	--

<ul style="list-style-type: none"> • Water coolers continue to be sanitised in line with BWT guidance but the water outlets will be cleaned daily. • Evaluate the capacity of rooms and shared areas – Done. Class sizes will be agree with Tutors taking into account overall numbers of students and individual student needs. • Staggered breaks – Tutors will discuss and agree themselves at the start of the day times for their groups to have their break so that movement through the building is kept to an acceptable level and communal areas do not become overcrowded. • Consider door signs mounted to identify max number in room at one time – Not needed for toilets as these are individual. Signage to be put on kitchen door. Restricted numbers not required but staggered breaks limit number of students moving around the building at any one time. • COVID-19 posters/signage displayed – Reminders for hand washing and not crossing 	<p>communication are in place.</p> <ul style="list-style-type: none"> • Ensure regular communications that those who have coronavirus symptoms, or who have someone in their household who does, are not to attend White Horse – <i>to do if needed.</i> • Ensure information is shared about testing available for those with symptoms – All staff to undertake twice weekly LFT during return to classroom teaching. It is now up to individual staff to decide on their own testing regime in line with their own individual risks and concerns. • Staff are to inform the Training Manager of any positive results or concerns that they may have COVID-19. • Continue to have a contingency plan in the event that 	<p>Horse. However it is acknowledged that students and/or staff may wish to continue to wear a face covering especially in enclosed areas of the building such as toilets and the kitchen in which case the use of face coverings is an individual's personal preference. Hand sanitiser continues to be available for use throughout the building and staff and students will continue to be encouraged to practice good hand and respiratory hygiene.</p> <ul style="list-style-type: none"> • Bins provided on entrance to dispose of PPE, masks, etc. – Done. No change. • It is advised that students do not gather in groups outside or at entrance to the building - In student information. No change. 	<p>reminding students about the guidance.</p> <p>Minimising contact</p> <ul style="list-style-type: none"> • Doors can continue to be propped open, where safe to do so to limit use of door handles and aid ventilation throughout the building. Staff must ensure they are closed when premises are unoccupied. Done. No change. • Staff and students should continue to have their own individual and very frequently used equipment, such as pencils and pens. Where equipment is being shared e.g. calculator, computer the equipment must be cleaned down after use using the wipes provided. Ongoing. 	<p>with symptoms of COVID-19 they should monitor themselves for symptoms of possible COVID-19 and follow current guidance relating to testing.</p> <p>Hand washing</p> <ul style="list-style-type: none"> • Frequent hand washing must be encouraged for staff and students (following guidance on hand cleaning). In student information and signage. • Sufficient handwashing facilities are available. Done. • Antibacterial soap is provided and normal soap is available in the event of skin problems developing. • Hand sanitiser is provided in each classroom, the kitchen and the office spaces. • Hand washing signage is in place in the toilets and
